PROFESSIONAL SUMMARY

IT Infrastructure Engineer with 5+ years of hands-on experience in Microsoft 365 administration, PowerShell automation, and enterprise IT operations supporting global teams across India, the UK, and the US. Proven track record in M365 tenant-to-tenant migrations, enterprise backup solutions, and L1/L2 escalation support at scale. Holds the MS-102 (Microsoft 365 Administrator) certification and is actively advancing toward Azure cloud and DevOps engineering roles. Recognized for scripting precision, security-first mindset, and ability to design solutions that reduce manual overhead while improving operational reliability.

CORE COMPETENCIES

Microsoft 365 Administration	PowerShell Automation & Scripting	M365 Tenant-to-Tenant Migration
Exchange Online & Entra ID	Enterprise Backup & Disaster Recovery	Azure Active Directory / Entra ID
Microsoft Defender for M365	ITSM — ServiceNow / ConnectWise	SharePoint / Teams / OneDrive
MFA / Conditional Access	L1/L2/P2/P3 Escalation Support	Azure, GCP, VMware Virtualization

PROFESSIONAL EXPERIENCE

Associate — Infrastructure IT OPS (M365 Engineer) | Coforge Limited

May 2022 – Present

Greater Noida, India · Supporting India, UK & US

Microsoft 365 & Exchange Online Administration

- Administered Microsoft 365 tenants via Admin Center, Exchange Online, Entra ID, Microsoft Defender, and PowerShell — supporting 1000+ enterprise users across India, UK, and US.
- Managed Exchange Online mailboxes, distribution lists, shared mailboxes, mail flow rules, connectors, and anti-spam/anti-phishing policies.
- Configured and maintained Entra ID (Azure AD) user lifecycle — provisioning, deprovisioning, group management, licensing, conditional access, and MFA enrollment.
- Administered Microsoft Defender for Office 365: Safe Links, Safe Attachments, anti-malware policies, threat explorer, and incident response.
- Managed SharePoint Online, OneDrive, and Teams — including site provisioning, permissions, sensitivity labels, DLP policies, and Teams governance.
- Automated repetitive M365 administration tasks using PowerShell — including bulk license assignments, user onboarding/offboarding, mailbox auditing, and compliance report generation.
- Handled MFA escalations, P2/P3 priority tickets, and daily operational reporting; delivered onboarding and KT sessions to new global team members.

M365 Tenant-to-Tenant Migrations

- Led and participated in multiple **end-to-end M365 tenant-to-tenant migrations** — covering Exchange Online mailboxes, SharePoint Online sites, OneDrive for Business, and Microsoft Teams data.
- Executed migrations using BitTitan MigrationWiz, Quest On Demand Migration, Cloudiway, and ShareGate — selecting the appropriate toolchain based on tenant complexity and data volume.
- Performed pre-migration assessments: DNS record validation, license mapping, coexistence configuration, AAD Connect planning, and cutover scheduling.
- Configured domain federation, hybrid mail flow, and MX/Autodiscover DNS records during transition windows to maintain zero mail loss.

- Managed post-migration validation — mail flow testing, permissions reconciliation, Teams channel ownership, and SharePoint site integrity verification.
- Conducted user communication, readiness training, and hypercare support during and after migration cutover events.

Backup, Recovery & Data Protection

- Managed enterprise backup and recovery operations using **Rubrik, Druva, and Veeam** — covering M365 workloads (Exchange, SharePoint, OneDrive, Teams) and on-premises servers.
- Configured and monitored backup policies, retention schedules, and RPO/RTO targets in alignment with business continuity requirements.
- Performed on-demand and scheduled restore operations including item-level recovery, point-in-time restores, and disaster recovery drills.
- Conducted software validation assessments (e.g., BitTitan) prior to procurement decisions, providing technical evaluation reports to stakeholders.

Global IT Support & Operations

- Provided L1/L2 technical support to global users across India, UK, and US via ServiceNow ticketing and ConnectWise Automate RMM — maintaining SLA compliance.
- Triaged and resolved P2/P3 escalations covering MFA failures, conditional access blocks, email delivery issues, and cloud connectivity incidents.
- Proactively monitored the M365 service health dashboard, Microsoft Secure Score, and Defender alerts — identifying and mitigating risks before user impact.
- Delivered onboarding training and knowledge transfer documentation for new infrastructure team members across global locations.

System Engineer | Lineal Services Pvt. Ltd.

Sep 2021 – Apr 2022

Ahmedabad, India · Supporting US, UK, Dubai, Frankfurt

- Delivered L1/L2 IT support to global users across the US, UK, Dubai, and Frankfurt via ConnectWise RMM and Wrike ticketing.
- Administered Office 365 workloads including Exchange Online, SharePoint, and Teams for multi-region clients.
- Managed cloud storage solutions — AWS S3, Synology NAS, and Backblaze — including backup configuration and recovery operations.
- Configured and administered Duo MFA and ESET Endpoint Security for identity protection and endpoint compliance.
- Managed Azure, GCP, and VMware virtual environments; created and enforced Group Policy Objects (GPOs).
- Executed user onboarding and offboarding workflows; maintained asset registers and vendor records.

System Engineer | Precision Infomatic (M) Pvt. Ltd.

Aug 2020 – Sep 2021

Client-site deployment, India

- Resolved hardware, software, server, and networking issues for enterprise clients — covering desktops, servers, and network infrastructure.
- Managed Active Directory user accounts, policies, and compliance reporting; administered Hyper-V virtual machine environments.
- Installed, configured, and maintained McAfee Total Security endpoint protection; performed server patching and scheduled maintenance cycles.

TECHNICAL SKILLS

Microsoft 365

Exchange Online, Entra ID (Azure AD), Microsoft Defender for M365, SharePoint Online, OneDrive, Microsoft Teams, Power Platform, Admin Center, Compliance Center

Migration Tools

BitTitan MigrationWiz, Quest On Demand Migration, Cloudiway, ShareGate, Tenant-to-Tenant Migration, Mailbox Migration, SharePoint Migration, Teams Migration

Backup & Recovery

Rubrik, Druva, Veeam, RPO/RTO Planning, Item-level Recovery, Disaster Recovery, M365 Backup

Automation	PowerShell (PS7), Microsoft Graph API, PowerShell Scripting, Workflow Automation, Bulk Provisioning
Cloud & Infra	Microsoft Azure, GCP, VMware, Hyper-V, Active Directory, AWS S3, Synology NAS, Backblaze
ITSM & RMM	ServiceNow, ConnectWise Automate, Wrike, SLA Management, L1/L2/P2/P3 Support
Security	MFA, Conditional Access, Microsoft Defender, Duo MFA, ESET, McAfee, DLP, Sensitivity Labels
Networking	DNS, DHCP, OSI Model, Mail Flow, MX Records, SPF/DKIM/DMARC, Remote Management

CERTIFICATIONS

MS-102: Microsoft 365 Administrator — Microsoft	2024
Computer Hardware & Networking — Avni IT Placement, Dehradun	2020

NOTABLE PROJECTS & TOOLS

SitePulse — sitepulse.avinashkathait.in

Website security and health diagnostic tool performing real HTTP checks, DNS analysis, security header inspection, and SSL/TLS validation. Built with a security-first approach using a single-file HTML architecture.

MailGuard — mailguard.avinashkathait.in

Domain intelligence and email security analysis tool. Checks SPF, DKIM, DMARC, MX records, and includes a full email header analyzer to trace routing and detect spoofing — directly applicable to enterprise email security operations.

EDUCATION

Bachelor of Commerce — H.N.B Garhwal University	2019
Intermediate (Commerce) — C.B.S.E	2014
